Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

FINAL ACTION

Applicant's amendment of 8-12-05 has been fully considered. The amended claims 43-45 have not overcome the previous rejection of 112/1st paragraph by replacing the term "prevention" with the phrase "acute or prophylactic". Thus, the previous enablement rejection for "prevention" is maintained herein.

The deletion of "OCH₂" from the definition of X has overcome the previous "scope of enablement" rejection, and so, said rejection is withdrawn herein.

The deletion of the limitation of "R¹ and R² are the same as each other", and the limitation of "R⁷ and R⁸ are the same as each other" has overcome the previous rejection of 112/2nd paragraph.

Claims 1-42, 49 and 50 have been cancelled.

Claims 43-48, 51 and 52 are pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Enablement: Claims 43-48, 51 and 52 remain rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the

Art Unit: 1624

art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claims 43-45 have been amended with the language of a “method for the acute or prophylactic treatment of a disease...” The term “prophylactic” suggests “preventing on anticipation” which is meant for preventing a pathophysiological condition that is resulted from a medical procedure (e.g., surgery), or exposure to certain environment (e.g., high elevation, or polluted area). However, a disease related to a phosphodiesterase isoenzyme” is usually a chronic disease such as: asthma, chronic obstructive pulmonary disease (COPD), or arthritis, etc. Thus, it is unclear how a compound can prophylactically treat such a disease since the duration of said diseases is indefinite. The specification does not describe a protocol for a “prophylactic treatment” of a disease related to “phosphodiesterase isoenzyme”. Thus, the specification fails to enable a “prophylactic treatment” as recited in said claims.

Claims 46-48, 51 and 52 are rejected as being dependent on claims 43-45.

Telephone Interview

A telephone interview was conducted on 10-26-05 with Ms. Christine O'Day to resolve the enablement issue above. However, due to applicant's unavailability, no agreement could be reached.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1624

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
